

# Eltive Safe Hands Emergency Procedure

---

## Statement

The safety of our students is our main priority. Eltive Safe Hands acknowledges that there may be situations out of their control that require planning for. This plan outlines what Eltive Safe Hands will do in the event of an emergency. (Please note that the scenarios are not exhaustive.)

## Emergency Procedure

### Dealing with an emergency

It is important that staff who receive an emergency call keep calm and remember to note all of the information provided. You may need to provide reassurance and support to the informant as they may be upset, suffering from shock or may panic.

- Ascertain out what has happened, gathering as much information as you can;
- Discuss with the informant what action needs to be taken and by whom;
- Keep a written record of the information and of any actions taken. (A template for recording incidents is included at end of this plan);
- The Louisa Fennell should be informed immediately about the situation.

### Specific scenarios

Please note that specific scenarios may require a bespoke plan that will include further details on how we will handle the issue. Where this is the case Eltive Safe Hands will circulate the plan with all relevant parties.

### Cancelled Flights

When a student's flight is cancelled in the UK Eltive Safe Hands will arrange for suitable care. If necessary students will be accommodated in an emergency homestay until it is possible to travel. Where a student is waiting at an airport without a member of our staff, students are required to contact Eltive Safe Hands as soon as they are aware that their flights have been cancelled. Parents will be kept fully informed of the situation. Eltive Safe Hands will liaise with the airline and parents to re-arrange the flights.

## Pandemic/ Contagious Outbreak

Pandemics can cause major disruption to travel and schooling. It is important in such events to take advice from the government, Public Health England and the World Health Organisation. AEGIS provides guidance for members to follow. This is regularly updated as a situation develops. Usually, in a pandemic it is important to restrict movement so as not to spread the disease further. That means boarding school students would usually remain at school. In the event of a pandemic Eltive Safe Hands may not be able to offer homestay accommodation as this could place students, homestay families and the wider community at risk. Eltive Safe Hands will work with parents to find flights to home countries where required. Eltive Safe Hands will work with schools to meet students' needs during a pandemic. This could be by helping to support students to learn remotely as directed by the school. Eltive Safe Hands will work with parents and schools to find suitable quarantine accommodation for students where required.

Eltive Safe Hands has a specific policy that outlines our procedures for dealing with a pandemic, *our policy follows Aegis' very closely in that students should be quarantined in school where at all possible as this is the easiest way to stop the spread, where this is not possible alternative quarantine accommodation will be found within a caring family environment away from other students but not necessarily in a different house, Eltive has had experience of this over the course of this pandemic and has been successful in containing the virus, in each case our quarantine procedures meant no student quarantining passed it on to another. The student is collected from school alone sitting in the back of the car behind the passenger seat, handling their own baggage, wearing double mask with all windows open, the only other person in the car is the driver also wearing a double mask. The car is sanitised after the student is delivered to the host family. The student is directed immediately to their room with their own bathroom, this is where they stay until they have 2 negative tests 24 hours apart, the first of these tests must not be taken within 5 days of first positive test. Meals are placed outside the room and no contact made with the student. The crockery and cutlery are sterilised after every meal, the student has antibacterial spray to disinfect often, and the bathroom is cleaned twice daily. The student has access to outside space to exercise alone. The host is on hand 24/7 for necessities and conversation at a safe distance. Parents are informed and updated regularly including parents of any other students residing at the accommodation.*

## Serious injury or death of a student

Serious injury or death of a student is distressing for all concerned. Eltive Safe Hands will:

- Liaise with medical staff and police
- Keep parents informed
- Help parents arrange flights
- Handle any media enquiries
- Liaise with schools and any other external agencies (such as LSP) where required
- If required, assist parents with rehabilitation and flights home

- If required, assist parents with funeral arrangements

## Terrorist incident

Schools will have their own lockdown procedures to ensure the safety of students in the event of a terror attack. In the event of a terror attack taking place in the UK when a student is staying at a homestay, Eltive Safe Hands will follow the guidance provided by the UK government and the police. Unless instructed otherwise, students will be asked to remain in the homestay and not to go out unaccompanied by their homestay. In such a situation Eltive Safe Hands will assess the risks and act accordingly.

## Fire

In the event of a fire at a homestay, after dealing with the emergency by calling the fire brigade, the homestay is expected to inform Eltive Safe Hands. Students will be moved to a different homestay until the accommodation is refurbished. Eltive Safe Hands will visit the homestay to check the suitability of accommodation before any students return.

## School closures

There are many reasons why a school may close. These could be temporary, such as due to weather or a staff shortage or permanent, for example due to bankruptcy. Unless closure is due to a contagious disease (see pandemic guidance above), Eltive Safe Hands will provide accommodation for students with their homestays\*.

## Requests from schools to remove a student

Eltive Safe Hands has a plan in place for any student who cannot be accommodated by the school due to illness, disciplinary action or any other cause. *Again, Eltive as experience of this, students are collected as soon as possible and placed in a caring family environment. In the case of disciplinary reasons, the host will monitor without being over bearing and offered light council and a friendly face whilst making them aware of the right way to conduct themselves. In the case of illness, the host will make sure the student is seen by their own doctor if needed and look after them as appropriate.*

## Emergency Homestay Accommodation\*

Please note that emergency homestay placements may not necessarily be with the students' usual homestay, but will be with one of our vetted homestays who provide high levels of care. These homestays may be a greater distance from the school. Wherever possible we will place students with their usual homestay.

## Emergency Contact Details- Guardian Organisation staff
